

HAPPY HOLLIDAYS – UOTP STUDENT CHRISTIMAS PARTY DECEMBER 8th

HAPPY HOLLIDAYS – UOTP FACULTY CHRISTIMAS PARTY DECEMBER 8th

UOTP – Featured Alumni and Intern

Alekhya Yarubandi received a master's degree in Information Technology in 2017 and is now an OPT intern student with the UOTP.

Geospatial Intelligence @ the UOTP

In less than two years the UOTP has developed and implemented an academic concentration designed to provide MBA and MS-IT degree students and other professionals a competitive advantage in the Geospatial Analytics, \$73.91 billion-dollar market. On December 1, 2018, the UOTP GIS community of students, instructors and private industry GIS experts hosted “GIS DAY” at the campus.

Geospatial Intelligence is an innovative methodology that allows support of traditional and spatial data through merging Geographic Information Systems (GIS) and Business Intelligence (BI) Technologies. The GIS approach offers innovative, ground-breaking customer intelligence solutions that can lead to better decisions and provide competitive advantage in any field or industry.

Current UOTP students utilize top-notch ArcGIS software to operate in 2-D/3-D environment, learn the concepts for designing Smart Cities, Geospatial Mobile Apps that provide competitive advantages to IT companies, businesses, governments, and agencies/associations through merging GIS & BI technologies. Recent study proves that there is constant demand in a workforce with added knowledge in Geospatial technology and intelligence from an IT/Business Analyst and Manager to Chief Executive. GIS jobs are needed in many industries: IT, Data Analytics, finance, insurance, telecommunication, real estate, retail, tourism, oil/gas, HR, and numerous national and international consulting companies.

Dean Andronikov thanks our GIS guest speakers

CONGRATULATIONS!!!

Chosen by the UOTP student body as **BEST FACULTY of 2018**

Dr. Foggie is originally from Winston-Salem, North Carolina. He completed his undergraduate studies at the University of Maryland, postgraduate at the University of LaVerne (CA.), and a doctoral degree from the University of Phoenix in Organizational Leadership.

Dr. Foggie has instructed and facilitated graduate courses for over 14yrs. He serves as a Program Manager/Analyst for a U.S. Department of Defense, Cyber Security organization.

He enjoys traveling to different countries and lived abroad in Guam, Alaska, the United Kingdom, South Korea, Japan, and Italy. Personal hobbies include running, playing and listening to live music, weightlifting, softball, golf, and of course watching collegiate and professional football.
